Ouch, make sure you give it plenty of ice and stay off. Tell the puppies to walk themselves (hah!) if not let's talk tomorrow.

Working from home today til 330pm if you need anything. Had a garden wooden corner pole fall on my left foot so I'm having trouble walking, painful. I should be in the office tomorrow.

Cristina

I don't know, you'll have to touch base with olivia. They just asked if either or both of us could attend at noon I think. I told them that I was booked that week on mon/tues/fri and most likely wed, so my only available day would be thurs. I said I'd touch base with you and that you were out due to a death in the family. They should just have the event when its good for them. I believe john white and olivia emailed me.

I can give you a short blurb on TfS, but not sure what you meant by 'give me a short description of your protocols and their relationship to our EPA tools?'

Cristina

Hi there, my mom passed away on August 4, and I am getting back into the swing of things just now. This very exciting news, let me check with our communications folks about our participation in this event. At a minimum we can provide some talking points. I have also included EPA HQ in this email from the Office of Children's Health Protection.

Could you please send me a short description of your protocols and their relationship to our EPA tools? Thanks.

Also, will be press at this event? High level county or state officials in addition to Superintendent?

Looking forward to your response!

Lorna Rosenberg is out of the office due to a family emergency, but I'm sure we'll both be able to touch base shortly.
